ALUMET

THE PRODUCTION OF LADDERS

Since 2005, ALYUMET Ltd. offers aluminum stairs, stepladders, mobile scaffold towers as well as household and professional steel ladders to its clients.

ALUMET Ltd. had won the leading position in Russia's national market thanks to a broad range of goods and flexible pricing strategies. As high quality is fundamental for all our products, they became famous overseas as well as nationally. We use modern, hi-tech equipment for manufacturing every position featured in our catalogues. It is a well-established mode of our activities to observe the demands of consumers – literally without a break, intending to develop new modifications of our products. ALUMET Ltd. makes a point in entry-level control related to materials and components that are to be processed further during the actual production timeframe. We have conducted all the necessary steps to certify the high-level quality of our products. The company guarantees that the items we offer are well enough for long-term and safe use, no matter which kind of work you need to do. Reliability is our top priority! ALUMET Ltd. possesses large storage capacity that makes it easy to ship products of any kind and volume within the shortest period of time possible. We both value our experienced customers and strive to build new links of cooperation. The company's personnel is happy to offer a comprehensive understanding of our products as well as assist you in assembling your ordered items.
